The Artist

Tatsuro Kojima was born in 1977. His base is Japan. His work has been included on albums of multiple artists. He has collaborated with artists and labels in Japan, Poland, England, and other countries. He is also active in web design, graphic design, and mobile app development.

The Album

The songs on 16g were composed between 2009 and 2011. Each CD comes in a unique package including an individual cover photograph by the artist. A duplicate photograph is matched inside the digipak with a signed and personalised message from Tatsuro. No two packs or messages are the same - they reflect the changing nature of listening experience as sound is recontextualised with every listen.

The artist recorded the album's environmental sounds in the field steps crunching on ice or snow, and other sounds. Throughout, the album strives to evoke the feel and sensation of paper-thin ice or richly-coloured, yet transparent air.

In the making of this album, I'm indebted to Masahiro Araki, who forgives everything, as well as to Aya Fukaya, for lending me her beautiful voice. I'm also grateful to my fans everywhere - in Japan, Poland, France, Sweden, England, and other countries - the people who continuously support me, the people who give me courage, and lastly the love of my life, who is always there to prevent my becoming a hermit in my room, and who inspires countless new and beautiful feelings. Thank you so much.
